

Directions from Ohio Aerospace Institute to 3000 Aerospace Parkway and Apollo

Shuttle Information:

Due to the expected attendance at the HUBZone Industry Day event on June 19, 2012, we anticipate that there will not be sufficient space to accommodate all attendees in the Ohio Aerospace Institute parking lot. Therefore, we will be running a 14-passenger shuttle bus to and from Ohio Aerospace Institute to 3000 Aerospace Parkway from 7:15am-3:00pm. Please arrive early to allow for transit time between the two locations. Carpooling is strongly encouraged, and consider dropping off passengers at OAI with the driver taking the shuttle. There will be directional signs from Ohio Aerospace Institute to the overflow parking lot at 3000 Aerospace Parkway. **If there is no parking at Ohio Aerospace Institute, proceed north to the traffic light. Make a right onto Aerospace Parkway. On the right, you will pass 2000 Aerospace Parkway, then Apollo, and the next building will be 3000 Aerospace Parkway. Park in the lot, and then wait for the shuttle at the front entrance of the building. If there are no parking spaces left at 3000 Aerospace Parkway, you can park on Apollo. If you park on Apollo, please walk to the corner of Apollo and Aerospace Parkway and wait for the shuttle there.**
